The San Diego County Voter Project is a Political Action Committee (PAC) whose principal aim is to motivate registered voters from underserved communities to vote in primary and general elections.

While voter registration efforts remain important, opportunities for effective and responsive representation are presently missed because large segments of registered voters stay away from their polling stations on Election Day. Good candidates lose elections because our communities forget to vote, are unable to find their polling stations and/or they cannot leave work or other commitments to make it to their voting booths before they close.

The short-term solution is to improve **Voter Turn Out** with the implementation of a dynamic and targeted campaign that increases voter participation by voting-by-mail (absentee voting). With your support, SDCVP will play a big role in helping turn out the vote in November.

Contributions are not tax deductible.

Paid for by San Diego County Voter Project, 1531 Grand Avenue, San Marcos, CA (760) 752-1610, ID# 1326989 Xavier Martinez, Treasurer.
